Registered Office: 6, Dwarka Sadan, Press Complex, Zone-I,
M. P. Nagar, Bhopal - 462 011 (M.P.) India

	B. Adjustable positive expansion comb with gear motor for expansion and contraction. Min & max expansion limit	
8	Bobbin rack and fan support	
	A. Rigid tubular steel construction mounted on the beamer to support two (2) oscillating and vertically adjustable fans.	
	B. Each rack is equipped with two (2) bobbin pins and tension rods.	
9	Unlimited (Endless) Accumulator	
	Ceiling mounted an accumulation with unlimited rope reversing capacity with	Motor
		Gear box
		Rubber Nip Roller
		Pneumatic system
10	Lease String Detector	Mounted in between beamer and tension unit, it automatically stops when activated by lease string in yarn sheet
11	Tension stand with regenerative Bracking	
	A. Cantilevered tapered rolls	2
	B. cantilevered tapered rolls controlled by	A.C. motor with vector drive for constant and preset operating tension of rope
	C. Vibration in rope tension	Monitor and controlled by a dancer roller mechanism.
	D. Need tension stand rolls with rubber sleeves	
12	Shake out stand	A beater roll mounted on a heavy duty steel frame assists the opening process of rope
13	End uncrossing mechanism (yarn Strummer)	A geared motor rotates nylon belt having a series of special design pins which are in contact with
14	Single End Winder	
	A. Device to prepare bobbin for inserting yarn in place of missing end in the rope	
	B. Mechanical Provision for perfect synchronization of winder speed with the machine speed is incorporated	
15	Optional Accessories	
	Beam Pressing Roller	Unique design and developed hard impregnated paper tube press roller
	Drive Denfoss make	
	Cable Lapp	
	Pneumatic Items - Festo/SMC	

All electrical , electronics and mechanical items should be of same make and model as per last supply in machine
